## *Celebrating 30 years*

Dear past or present member,

As you may be aware the inaugural year of the *Victorian Carnivorous Plant Society* commenced in early 1984 following the launch of Gordon Cheers book "Carnivorous Plants".

To celebrate the 30 year milestone of promoting and growing carnivorous plants, we have planned a get together at the Cranbourne Botanical Gardens on Saturday the 25th October.

The society will meet at 11am for a BBQ lunch, followed by a field trip in the gardens to see the many carnivorous plants species known to occur naturally in the park.

We hope that you can attend and help make this a special event.

If you have any old photos or memorabilia that you can bring along to share, that would be great.

There will be a commemorative mug for sale on the day and a raffle to win a VCPS membership, mugs and many more prizes.

**Where:** Cranbourne Botanical Gardens. (Woodland Picnic Area)

**When:** Sat 25th Oct

**When:** from 11am

**Free entry**

**BBQ food and soft drink will be provided by the society, but we ask if you can please bring a Salad or Dessert to share. BYO Alcohol.**

Family and friends are most welcome.

Large playground for the kids.

Check our web site closer to the date for the latest updates. [www.vcps.org](http://www.vcps.org)

Hope you can make it.

Please let me know if you can attend.

**Peter Bloem**
